HIGH SECURITY WALL KEY CABINET

This high security wall key cabinet provides the necessary protection for restricted access keys. The KC-1612 mounts easily to the wall to keep these keys at your fingertips yet off limits to unauthorized personnel. Cabinet capacity is 179 keys. The body is constructed of 1/8" steel. A Group 2 combination lock, fortified by drill resistant material, is incorporated into the 1/4" steel security door. A recessed full length hinge, in conjunction with an interlocking jamb, protects the hinge side of the door.

KEY LOCKER

This KL-749 Key Locker is a compact storage container used for safeguarding limited access keys and other select properties. This lightweight but tough unit is constructed of a 1/8" steel body with a top opening, removable 1/4" steel door. This economical locker features a U.L. Listed Group 2 combination lock.

In addition to keys, the KL-749 Locker is also very suitable for the secure storage of evidence, petty cash, combination cards, etc. This locker can be secured into your existing security container or can be mounted separately in any convenient location. When secured in GSA-Approved Security Filing Cabinet, this container is authorized by The National Security Agency for storage of COMSEC Keying Material including Future and Two-Person Integrity Key.

UTILITY LOCKER AND OPTIONAL KEY RACK

The GL-1259 Utility Locker is a versatile, secure storage unit. Its compact size permits one to four* units to fit neatly inside the standard, legal size, Class 6 GSA-Approved Security Filing Cabinet.

The utility locker provides individual control, compartmentalization, economy, and practical, efficient use of drawer space. This versatile storage and control unit is ideal for the securing of keys, handguns, evidence, petty cash, negotiable instruments, combination cards, etc. The top is removable for easy access.

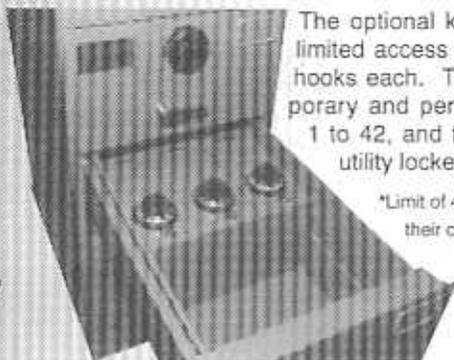

The optional key rack provides the efficient, orderly control of limited access keys. The rack features 6 flip panels with 7 key hooks each. The KR-642 Key Rack is equipped with both temporary and permanent key tags numbered consecutively from 1 to 42, and the unit fits perfectly inside the protective utility locker.

*Limit of 4 utility lockers to a drawer. More lockers and their contents may overload the drawer suspension.
